

## PA RECRUITMENT IN LONDON

Oriel Partners is a boutique PA and administrative recruitment consultancy based in Central London.

Over the last 12 months we have seen salaries stabilise and at the higher end even reduce slightly. This has been due to the candidates no longer being in such short supply and the rate of inflation slowly, yet steadily, coming down. However, although the top end of salary brackets has come down in most areas, overall salaries have seen an average increase of around 7.5%. We have found the market has remained mostly positive, seeing consistent levels of new roles coming through, with the occasional dip around the holiday periods.
